

6. Truth Table

- Following is the summarized table for Propositional Logic Connectives:

Connective symbols	Word	Technical term	Example
$\wedge$	AND	Conjunction	$A \wedge B$
$\vee$	OR	Disjunction	$A \vee B$
$\rightarrow$	Implies	Implication	$A \rightarrow B$
$\Leftrightarrow$	If and only if	Biconditional	$A \Leftrightarrow B$
$\neg$ or $\sim$	Not	Negation	$\neg A$ or $\neg B$

- Truth Table:** In propositional logic, we need to know the truth values of propositions in all possible scenarios.
- We can combine all the possible combination with logical connectives, and the representation of these combinations in a tabular format is called Truth table.
